

REDWOOD ESTD. **EMPIRE** MMXV

SMALL LOT SERIES

FOGGY BURL 100% CALIFORNIA SINGLE MALT WHISKEY

"Being a brewer before a distiller, I have an appreciation for the large variety of malts available and love to rotate in different types for all our recipes. This third batch features 12 unique malt varieties."

— JEFF DUCKHORN

A MALT LIKE NO OTHER

We've been quietly laying down approximately 20 barrels of single malt each quarter over the last 8 years. We constructed mash bills from a crazy wide variety of malt houses and malts including distillers, munich, carabawn, chocolate, caramel, Gallagher's best and Maiden Voyage.

Each barrel lot has a completely different recipe, and that complexity comes alive in the final product. Lighter malts bring traditional single malt notes and the inclusion of some fun darker chocolate and caramel malts provide a rich, robust palate. Foggy Burl is the artful blending of 55 barrels, 100% grain-to-glass and 94 proof.

BARRELS
PROD: 55

What is the SMALL LOT SERIES?

SMALL LOT SERIES is the result of years of experimentation. Since our first distillation in 2015 we have experimented with many aspects of whiskey production. Each SMALL LOT release allows us to apply our hard-won house style to products with a specific focus. In particular, these showcase unique mash bills and are exceptional examples of the impact of secondary grain influence. We are proud to say that these are a testament to our passion, patience and pioneering spirit.
